

**TO:** Custom Weld Boats  
Brice Barnes, General Manager

**DATE:** July 10, 2007

Our Department purchased one of your boats in 2000 and has been using it for Search & Rescue operations for the last seven years. We have not had any structural or mechanical problems with the boat and found it to be well powered for the swiftwater we have here in the Missoula County area. In addition, the boat provides a nice dive platform as the engine housing is the right height and roomy enough for two divers.

A handwritten signature in black ink, appearing to read 'D. Brenner', is written over a horizontal line.

Detective Brenner  
Missoula County Sheriff's Office  
Search & Rescue Unit Coordinator
