To Whom It May Concern:

Recently, I was contacted by Mr. Brice Barns of RiverView Marina and asked if I was willing to write a letter of recommendation regarding our patrol boat that we had purchased from them. I told Brice that I would be more than happy to do so. In 1997, we purchased a 1997 Custom Weld 20' Cobra S.E. from River View and have never looked back. As required by our tribe for capital purchases, I sent out for various bids and specs for our new patrol boat. After all was said and done, River View beat all bids, and met our specs.

Since buying the boat 10 years ago, we have found it to be finely built, easily maintained, and easy to operate. If ever we had a question about our boat, River View took the time and answered the question to our satisfaction. Also, the service department will work with you, and will get the job done in a timely manner. We have been satisfied with our boat and the service we have received from RiverView. In my opinion, purchasing a Custom Weld from RiverView Marina was the best choice. Should you have any questions regarding this letter, feel free to call me at my office at 208-843-7143.

Sincerely Yours,

X 
Adam A. Villavicencio
